DETAILED ACTION

Allowable Subject Matter

1. Claims 1, and 4-21 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The claims are allowed after full review of the arguments filed in the appeal brief, 8/14/06, and prior arguments, which the Examiner has found persuasive.

More specifically, the instant application is directed towards a non-obvious improvement over Elworthy (US 6,125,362, regarding claims 1 and 7), and Pon (US 6,047,251, regarding claim 15), which teach language determination of a document. The improvement comprising, regarding claim 1, **setting a negative assumption value** for each of the candidate languages indicating the document is **not** one of the candidate languages, the language analyzer determining that the document is one language of the candidate languages when the **negative assumption value passes a threshold value**. Regarding claim 7, **setting a null hypothesis to a true value** for each candidate language indicating the document is **not** in the candidate language and setting a false value, determining that the document is one language from the candidate languages when the **null**

hypothesis for the one language is disproved by approaching the false value.

Regarding claim 15, **setting a probability assumption** indicating that the document is **not** in the selected language, **disproving** the probability assumption **based on a contrary probability**, then the document is determined as being in the selected language.

3. Claims 4-6, 8-14, and 16-21 are allowed as their parent claims have been allowed.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
